

MD ALIFUR RAHMAN

Full Stack Laravel Developer

I'm a Laravel developer who loves solving tricky problems, writing lasting code, and building useful, solid products as part of a team.

EXPERIENCE

Full Stack Developer (Remote)

Apr 2024 – Nov 2025

KodeX Srl, Italy

- Developed core modules and plugins for the Nextpost automation system, covering Instagram marketing, scheduling, user management, payment gateway integrations, backend performance optimization, and major features such as the Social Academy learning module, content-creation tools, media templates, writer sections, and structured content-planning systems.

Jr. Software Developer

Feb 2023 – Mar 2024

IT Corner Limited, Khilgaon, Dhaka

- Contributed to the Laravel-based MD5 Trading CRM (Lite, Pro, Minimal), improving user flows, backend logic, dashboard performance, and system stability, while also developing its PWA version and supporting NFT platform features, including metadata handling, asset storage, and secure transactions.

Web Developer

Apr 2022 – Jan 2023

Amin IT Limited, Khilkhet, Dhaka

- Developed scalable web applications (News Portals, Education, E-commerce, Multi-Vendor) using Laravel/Lumen with optimized MySQL/MariaDB for performance and security, built dynamic front-ends with JavaScript, HTML, and CSS integrated with backends, and designed databases and analytics to support dashboards, reports, and content management.

Web Developer

Mar 2021 – Mar 2022

Mimosa IT, Khilkhet, Dhaka

- Developed a comprehensive Medical College Management System with student enrollment, faculty management, course scheduling, and admin dashboards using PHP (OOP) and MySQL, and engineered responsive front-ends with HTML, CSS, jQuery, and JavaScript for dynamic, mobile-friendly user experiences.
